Cloth polishing rings

POLISHING RINGS FOR EDGES, WOOD AND ALUMINIUM

LONG SERVICE LIFE | HIGHER CONTACT PRESSURE | STREAK-FREE GLOSS

DESCRIPTION

LcM cloth polishing rings have been developed for the woodworking and furniture industries. Thanks to their high fabric quality, they are denser than standard polishing rings with conventional cloth quality. This ensures better performance and a long service life.

Rings made of these fabrics are considerably more stable and allow higher contact pressure. Their structure absorbs LcM cleaning agents very well.

AREAS OF USE

Versatile – from pre-polishing to streak-free buffing, e.g. on:

- Edges
- Wooden parts
- Aluminium

YOUR BENEFITS

- Increased abrasion resistance
- Shorter processing times
- Cost advantages in the production process
- High-gloss polishing results

AVAILABLE VARIANTS

ITEM NO.	DESIGNATION	CLOTH	Ø × W × BORE (MM)
30080	Lc 3/80	RO 25	150 × 25 × 50
